

# THE LODESTAR FOUNDATION

Seeking happiness in philanthropy

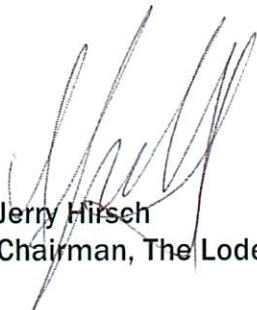

July 5, 2016

To Whom It May Concern,

Our foundation has been an effective partner with SeaChange Capital Partners for the past eight years. Jenn Goldstone was a key executive of SeaChange during the first three years of our partnership, and she worked closely with me.

Besides having a sparkling personality, Jenn provided an invaluable combination of creativity, media/marketing savvy and practicality to our work. She has that proverbial ability to think out-of-the-box, particularly when it comes to strategy. She is an artist with words. She paints the big picture with insight while identifying all the needed details. She very adroitly assumed management of a variety of projects, all of which were completed effectively and efficiently.

I hope her firm will be available for our future needs.

**Jerry Hirsch**  
Chairman, The Lodestar Foundation
